## Welcome Messages

Dear participants,

It is a great honour and pleasure to welcome you to the European Universities Table Tennis Championship 2025, hosted in the historically, culturally, and naturally rich city of Burdur, Türkiye.

This distinguished championship is a stage for athletic competition and a beautiful example of peace, friendship, and intercultural exchange. Sport is a universal platform where different languages, traditions, and ways of life come together to share common values.

In Burdur, the ancient city of Kibyra bears witness to the deep-rooted history of sport in this land. Thousands of years ago, people gathered in its ancient stadium to compete and share a sense of unity, respect, and peace.

In this region, where sports have even once paused intercity wars, the same mission continues today between countries through the principle of "Peace at Home, Peace in the World" established by Atatürk, the founder of the Republic of Türkiye. In Anatolia, as in the past, sport continues to bring together peace, friendship, and shared values.

Combining speed and intelligence, table tennis is more than just a sport – it is a universal language that builds bridges between cultures. Through this championship, young athletes from different countries will compete and forge new friendships, discover cultural heritage, and create unforgettable memories.

I want to express my deepest gratitude to all athletes, coaches, referees, volunteers, officials, and partners contributing to this championship.

Welcome to Burdur, where the past meets the present and competition inspires connection!

Sincerely,

**Mert Nalbant, President of the Organising Committee**

### ANTI-DOPING

Doping is not a guarantee of success in sport. In fact, its effect is usually the opposite. A lot of elite sportsmen and sportswomen who did doping got caught. As a result, they lost pride and were banned for at least 2 years from participating in a sport they loved and lived for. An even bigger problem of doping are the effects on the body.

In elite sports, doping is defined as a violation of one or more anti-doping rules:

1. Presence of a prohibited substance in an athlete's sample
2. Use or attempted use of a prohibited substance or method
3. Refusing to submit a sample collection after being notified
4. Failure to file athlete whereabouts information & missed tests
5. Tampering with any part of the doping control process
6. Possession of a prohibited substance or method
7. Trafficking a prohibited substance or method
8. Administering or attempting to administer a prohibited substance or method to an athlete

You can find the list of prohibited substances and methods on the internet, as it is updated every year by the World Anti-Doping Agency (WADA) and it's valid for every sport.

EUSA is active in Anti-Doping promotion, and has been a partner in the European Anti-Doping Initiative (EADIn) and Match point, supporting European-wide Anti-Doping mentality in the youth sector by establishing a moral tenor towards concepts such as Fair-play, sensitizing and raising awareness on all levels of the complex social environment surrounding the doping problematic, and implementing strategies to motivate young people to pass on the message and create a strong multiplying effect. Also, the International University Sport Federation (FISU) has been actively promoting sports without drugs, also at the university sports level.

EUSA is currently not enforcing doping tests at our events. In accordance with the national legislation of the host countries, however, doping controls may be implemented by the National Anti-Doping Agencies. If such doping tests are executed, the WADA rules and regulations are applicable to all athletes. Please remember that testing can be conducted in-competition and out-of-competition. If you are identified in a Registered Testing Pool (RTP), you must provide current and accurate whereabouts information.

What can you do to be an excellent athlete?

- Practice right and live healthy
- Get more information about the consequences of Doping
- Play fair and be a good role model to younger athletes
- Be committed to sport without doping
- Doping? No, thanks!

### FAIR-PLAY

Fair play is a core value of EUSA, deeply embedded in our mission and activities. In partnership with the European Fair Play Movement (EFPM), we actively promote sportsmanship, respect, and solidarity at all our events. For over 20 years, EUSA has championed these values, recognising fair play as the true essence of sport.

Fair play is present in sports as the unwritten rule, a moral value that represents the real essence of sport. It represents that the opponent must be appreciated, and nowadays, in the practice of sports, more than ever, it is vitally important to defend the values intrinsic to sport: respect for oneself and others, solidarity, and fair play.

Since 2007, EUSA has honoured outstanding acts of fair play with the Enno Harms Fair Play Award, named after our first President and a strong advocate for fair play. At each event, organisers, delegates, and participants commit to upholding fair play, with the oath of respect and integrity declared during the opening ceremonies.

The prestigious annual EUSA Enno Harms Fair Play Award is awarded to athletes demonstrating

fair play during the matches, following the rules, and pursuing a "clean" game, and is awarded with a fair play recognition already during the event. EUSA Executive Committee members discuss the proposals received from all sporting events governed by EUSA in that year and select the team or individual to receive the Enno Harms Fair Play award, which is formally handed to them at a special occasion, usually at the EUSA Gala.

### **EUSA INCIDENT POLICY**

One of the Fundamental Principles of Olympism is that “practice of sport is a human right” and that “every individual must have the possibility of practising sport, without discrimination of any kind”. This principle further states that this requires a behaviour based on “mutual understanding with a spirit of friendship, solidarity and fair play”.

EUSA considers sports as an active tool in the education of university students and aims at encouraging and supporting “the promotion of ethics, Fair Play, gender equity and good governance in sport” (EUSA Statutes).

With the EUSA Incident Policy, EUSA clarifies the expectations and consequences regarding the behaviour of different stakeholders at EUSA's events to allow the creation of a safe and enjoyable environment.
